FLOTION™

Lotion Dispensing Pumps

FLOCON Inc is a manufacturer producing both proprietary and customer specified fluid dispensing solutions, applicator solutions, and custom injection molding. Our products are manufactured and assembled in the U.S.A. with high speed automation. Vertical integration enables us to offer lead times much faster than industry standards.

The **FLOTION™**, is a high performance precision lotion pump. This pump is suitable for dispensing lotions, gels, creams, sanitizers, and waxes with a 2 ml output. Lock down feature for leak proof convenient storage and handling. Low profile design available in 24/410 smooth and 24/410 ribbed closure options. Standard colors are Black, White, and Natural. Custom colors are an available option.
